

Grants.gov Release Notes

R2025-01.4.simpler Adding Link to Simpler Search

Production Deployment: July 18, 2025

Training Deployment: July 18, 2025

Release Notes Overview

Summary of Changes

- This release adds a link in the header navigation menu to new search features at Simpler.Grants.gov/search.
- Users who are not yet logged in (viewing public pages) will find the following two options under "Search Grants" in the Grants.gov navigation menu: "New Simpler search" (which can also be accessed at Simpler.Grants.gov/search) and "Classic search" (the preexisting opportunity search page on Grants.gov).
- Please note that on Grants.gov Training environment, the "New Simpler search" link currently points to Production. Therefore, Training environment users should use the "Classic search" link on the Training environment if they would like to access opportunities within the Training environment.
